to the faction represented by Federal offace is ders.

That faction was defeated, and as a result Maryland will choose an anti-Harrson delegation to the next legal-lean Convention. As the President had counted on victors in Baltimore and Maryland, recarding the contest there as the direct skirmish for succession, his defeat has the countly alarmed him, and it may be set down as a fixed set that henceforth Blaine will not be permitted to win any more political laurels.

A plane of the printers' strike here, which may reach far beyond the bounds of the Federal capital, was developed to day. The president of the Printers' function is a Government printer. After the strike, which involved job printers not in the employ of the Government, had been consummated, he openly proclaimed a practical boycott against all firms resisting the increased scale of wages. While denying that his plan was that of the usual beyont, he declared, through the press and in our claims that acting for the Union it was his purpose and policy to see that offices resulting the advance should not have work county to do and the use of any workmen. Several of the large firms did resist the increase, and to day they personally processed to the Public Trinter against the any workmen. Several of the large firms did-resist the increase, and to-day they personally protested to the Public Printer against the course pursued by Government comployes. In very emphatic language they denied the right of President Kennedy, of the Printers Union, who is deriving his support from the Government, from taxes paid by the public at large, to head a beyout. The laws now existing, tending to prohibit any such invasion of general rights and privileges, were cited, and unless the Public Printer shall take eatly action the matter may go into the courts.

THAT SILVER BRICK IN COURT. In the Supreme Centr of the District of Journing to-day the order recently usuard, irrecting the Secretary of the Treasury to appear and show cause why amandamus should not be granted to compel bin to com the alvertick tendered by the Western silver syndiciae, came up. A request for two weeks' design presented by the congruent counsel for de, came up. A request for two weeks' de-oppresented by the government counsel for is Secretary of the Treasury was granted, mass a further delay is then obtained the uestion will come up for argument.

Mr. Edward C. Leech, direct r of the mint, will probably issue a circular to morrow to stasts for new designs for subsidiary come. The general features of the present coins will be measured to a considerable extent. The coins to be changed are the silver dollars, half dollars, quarter dellars and dimes. These changes are to be made under the act passed at the last season of Congress, which appropriated \$150,000 for the purpose and is available July ist. Director Leech thinks that from \$2,000,000 for the purpose and is available July last. Director Leech thinks that from \$2,000,000 for the purpose and is available. Both Political Parties Anxious to Find Out What the Alliance Demands. The Organization in New York.

New York, April 6 .- Jerry Simpson, who sprang into fame as "the sockless statesman with considerable eclat. He asserted in a number of his speeches, and it is the generally recognized fact, that he did not officially

miles west of this city, on Bennet's fork of Yellow creek.

The participants in the tragedy were Adam Lejere, a saloon keeper, and Lunsey Leach, a miner. Lejere and Leach met in the above saloon and fell out over a woman which, it is said, was living with Leach as his wife. Hot words, superinduced by bad whisky, followed. They then left the house, and when upon the outside turned face to face and without a word both drew their guns. Lejere with a 38-calibre Smith & Wesson and a 45-calibre Colts, and Leach with a 38-calibre Smith & Wesson.

Both men were dead game. They eyed each other for an instant, and then the deadly work began. A fusillade of shot began. When the smoke cleared away Leech was seen to stagger a short distance and full dead with a bullet through his abdomen. Lejere was untouched, and immediately after the shooting fled. He was met going up the mountain side by a gentleman to whom he exhibited his cout. It was riddled with buillets, Lejere then disappeared in the mountain fastness.

Seven Italians and Two Others Perish in a Burning Tenement.

ROCHESTER, PA., April 6.—The most frightful calamity that has ever befallen this place oc-curred early this morning, and as a result nine lives were lost. Between the Rose building corner Brighton and New York streets, and corner Brighton and New York streets, and
the railroad crossing, were a row of cheap
frame tenement houses, the first floors
of which were occupied as business houses. Shortly after midnight fire
was discovered in the lower buildings, and
an alarm was given. The fire gradually spread
to the second and third houses, and in a few
minutes, all were in flames. But few of the
citizens were on the scene until the fire was
well under headway, and efforts were made to
save property, but with little effect, as the
building, which was of a highly inflammable
material, burned rapidly.

In the midst of the hottest part of the fire
an Italian girl, about sixteen years of age, appeared at the window of one of the burning
buildings and leaped toward the ground, two
of the firemen catching her before she struck.

SEVEN PERSONS BOASTED ALIVE. Between her sobs, she stated that all her

father's family were yet in the burning house, but as the flames now had full control of the building it was impossible to save them, and seven persons perished in the Italian family. The rooms occupied by the Italians were in the centre of the building, and when it was found that lives had been lost, a careful inquiry was made regarding the occupants of the building first to take fire. It was inhabited by a shoemaker named Edward J. Keene, with a family consisting of a wife and three children. None of the family could be found for a time, but during the height of the excitement. Mrs. Keene, with two of her children, arrived from Pitteburg on train No. I. It was then feared that Mr. Keene and his eldest son, Waiter, a boy of wight years of age, were lost.

MURDERED AND THEN RORBED. Evidence that John W. Gonsawalis was Foully Dealt With.

Pritishing, Pa., April 6.—What is believed to have been an assassination and robbery occurred at West Liberty, a hamlet two miles south of Pattsburg, at a late hour last might. This morning the body of John W. Gorsawalls was found on the road leading from West Liberty to Pittsburg. There was a pistol wound in his head, and his pockets had been rifled of the contents. In the hand of the victim was found a revolver with empty chambers. There is no cline to the cause of his death, but police officials are satisfied that he was murdered and then robbed. The victim had spent last evening with Miss Maggie Smith, to whom he was engaged to be married and had left West Liberty at II o'clock, intending to go to the home of his mother in Allegheny City. Before leaving his sweetheart he had showed her a gold chain and a silver watch, and \$1,200 in each, which he told her was to be used to set them up at housekeeping when they should be married on the 15th of this month. He had also exhibited the revolver which was found clutched in his hand this morning. Of his valuables none were found except the silver watch. The watch was almost buried in the mid, having been trampled upon. There were evidences of a desperate struggle. Mr. Gonsawalis was about twenty-four years. Pressume, Pa., April 6.—What is believed

Sheriff Clawson arrested three rioters to-day, and they were held in \$1,000 bail each. He has warrants for twenty-five others. The strikers and their friends say they are being discriminated against, inasmuch as Captain Lear and his deputies, who are charged with felonious shooting, were only held in \$300 each, while the strikers are held on a \$1,000 ball.

The operators say the backbone of the strike is broken, while the strikers claim they are more determined than ever.

Set of Books.

Baltimore, Mr., April 6.—Joshua Thomas, a well-known member of the Baltimore bar, was arrested by order of Judge Phelps to-day on a bench warrant on a charge of forging a set of books. Mr. Thomas has for many years been a practitioner of the law in this city.

The arrest grew out of his case against the The arrest grew out of his case against the Smith Hailroad Axle Grease Company, a corporation in which Thomas had filed a bill for a receiver against the company, claiming that the corporation was insolvent. Judge Phelps, on February 18th last, passed an order directing the books to be deposited with the clerk of the court. Thomas alleged that in compliance with the order he brought the books in court. The defendants charged that two of the books brought in were not the company's books.

the books brought in were not the company's books.

Eugene D. Smith, a book-store clerk, swore that the two books in question were sold by him to Thomas in the latter part of January, 1891. The books purported to contain the company's cash account from the time of its organization in 1880. Then Judge Phelps charged Thomas with forgery and committed him. Later in the day he was bailed in \$2.500.

Mr. Thomas had been secretary of the company since its incorporation.

Sir James Fergusson Makes a Statement in Behalf of the Foreign Office-The English Wheat Crop-Notes.

CALCUTTA, April 6.—The startling news has reached here that, emboldened by the recent success of the Manipurs, the Miranzais in the Kohat district of the Peshawer division of the Punjaub have arisen in insurrection. Already the British lines have been attacked along their entire length. While it is not known or believed that the British lines have yielded to the vigorous and unexpected attack of the Miranzais, the situation is considered to be one of the utmost gravity. Troops of all arms are being rapidly hurried forward to strengthen the sorely pressed British force in Kohnt.

The Government officials are extremely reticent and refuse to give the details of information which they have received from the insurrectionary district.

A SECOND REVOLT REPORTED.

An additional excitement has been created by dispatches from Rangson, bringing the news that the Haku Chins have revolted and attacked the British.

A small british column, which was proceeding from one military post to another, was ambushed by the Chin tribesmen. In the first fire the Chins instantly killed Lieutenant Porbes and five goldiers, and exceptly wounded eleven others. The surprised column, after returning the fire of the enemy, succeeded in extricating itself from its dangerous position into which it had been drawn.

INDIA OFFICIALS BLUNDER.

Lieutenant Grant has sent a dispatch to the military authorities in this city in which he says that he believes himself to be the only European who escaped massers in the revent fight at Manipur. The blunder of the officials in sending so feeble a force to Assam is severely commented upon. Attention is also directed to the fact that the residency was supplied with Martini rules while Commissioner Quinton's escort was arried with Suider rules. The ammunition at the residency was adapted for use with the Martini weapons, and consequently could not be utilized by the secont when their own ammunition became and consequently could not be utilized by the escort when their own ammunition became

The Rajah fled, leaving his brother incontrol. Commissioner Quinton was sent to restore order and was met with resistance by the ruler at the head of a large body of troops with the result made known by the dispatches. The Viceroy telegraphed that he would soon quell the disturbance.

Mr. Labouchere moved a reduction of the estimates by 10.300 pounds on the ground that Kensington Palace was useless and the country would be better off without it. He also moved a reduction of 425 for Kew Palace as nobody knew where it was or who lived there. Sir George Trevalen sustained the estimates on the ground that the palaces were historic mementoes of considerable interest.

Mr. Waddly proposed to reduce the vote for the Rushey house on the ground that it was occupied by the Duc de Nemours, a wealthy foreigner, and it was monstrous that such a man should occupy it at the expense of the English people.

The Right Hon, J. Pluntkett held that the Queen was cutified, if she saw fit, to allow the house to a French nobleman for his residence. Mr. Labouchere's metion was rejected by 77 to 51, and Waddy's 85 to 55.

look, in the course of which it says that the steady rise in wheat revives the hopes of the English farmers. It adds that wheat will secure the best price in many years, the principal cause of the rise being the failure of foreign crops. In France and Russia, according to the Standard, the wheat crops are below the average, and will show a deficiency of not less than 2,000,000 quarters.

The only exception is Hungary, where there are better prospects, but it is almost certain that the world's wheat consumption will exceed the production computed. Whatever the magnitude of the American crop may be it will not be sufficient to cover the European deficit, thus compelling an extensive draft upon the reserves for third year in succession. Concluding its review the Standard says. "The increased home consumption, the decreased wheat area, owing to the spread of population and recourse to scientific filinge in order to repair the waste of the first settlers, thus increasing the cost of production must inevitably remove the American farmers' formidable competition in European marts and allow the English farmer to look forward to a prosperous future."

For or Against Parnell.

Sr. Louis, April 6.—The correspondence between Dr. Thomas O'Reilly, of this city, a member of the Executive Council, and President Fitzgerald, of the National League, will possibly develop into a sensational controversy between the leading members of the League in America. The question at issue is

whether the League will still recognize Par-nell as the leader of the Irish party in Parlia-ment in consequence of his deposition by a majority vote Parnell's conduct, said Dr. O'Reelly, has disqualified him as a leader of

the firsh party.

This is the general opinion throughout America. There are, however, a few who are inclined to recognize him as the leader. A dispatch from Lincola, Nob., purporting to be from a friend of Mr. Fitzgerald, with his sanction denies the charge that is made against him of being inclined to favor Parnell, and calling the council together for the purpose of having the League support him. The charge is nevertheless true, as papers in his possession will show.

(By cable to The Times.)

Lownon, April 6.—Advices from Chili leave little doubt of Balmaceda's approaching defeat. The whole country is rising against the President and the outrages his troops have perpetrated everywhere in the burning of houses and the destruction of crops and vineyards belonging to escaped opposition leaders. The late as called election is said to have been the veriest fare, includy daring to vote but emplayes of the Government. The harvest is rotting in the field, owing to the laborers having been tempted away by bounties to the military service.

Has Parnell Married?

Lornon, April 6.—A sensational rumor is affeat to-day in the lobby in the House of Commons to the effect that Parnell has been privately married since the divorce proceedings and not to Mrs. O'Shea. Parnellines who have been questioned refuse to discussif, but they say that the mystery of their leaders more life, often referred to as tending to clear his character from the stain upon it, will shortly be explained.

The Newfoundland Balt Act.

Ottawa, Oxt., April 6.—Minister Tupper, speaking on the subject of the treatment of caucilian fishing 'vessels in Newfoundland ports, said yesterday that official notice had been received some time ago that the Newfoundland authorities intended to rigorously enforce the bait act this year. That action makes it an offense for any Canadian, United States or French fishing vessel to buy or take bait in Newfoundland without a license. It was rumored some time ago that free licenses were to be issued to the United States vessels, while Canadian vessels were to be discriminated against. The result of such a policy, Mr. Tupper thought, would be a reneal of the Newfoundland Bait act, which was allowed by the British Government to go into effect in 1867 only on the express stipulation that it would not be enforced against Canada.

Italian "Bluff" Talk.

Tononro, Onr., April 6.—Signor Prdo Valimni, an Italian of distinction and an official of his Government, was interviewed on the New Orleans affair as he was passing through here on his way to Japan yesterday. He declared that the Italian Government would insist upon the stand already taken and that no settlement would be arrived at until the families of the murdered men had been compensated and the "assassins" arrested and placed on trial. He further declared that unless the men who led the mob should be arrested before another week the flag of Italy would float over New Orleans within a month.
